

THE DIGITAL PLAYGROUND: What Are Kids Really Doing Online?

GAMING

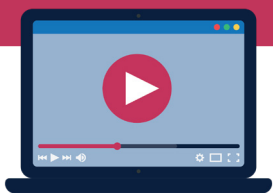

- Fortnite, Roblox, Minecraft, Among Us
- Chat features & virtual currency
- Common gateway to strangers online

SOCIAL MEDIA

- TikTok, Snapchat, Instagram
- Sharing photos, following influencers, messaging
- Privacy settings matter more than you think

VIDEO & STREAMING

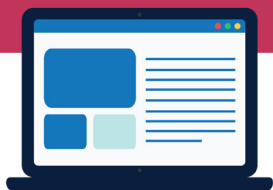

- YouTube, Netflix, Twitch
- Autoplay leads to unfiltered content
- Not all “kids content” is kid-safe

SCHOOLWORK & EDUCATIONAL APPS

- Google Classroom, Kahoot, Quizlet
- May include ads or links to third-party sites
- Still needs adult oversight

EXPLORING & SEARCHING

- Curiosity is natural—but search results aren’t filtered
- Innocent searches can lead to explicit content

Want to block threats before they reach your child?
